

Cisco Capital Customer At-A-Glance
Multi-Year Service Contracts Financing

Making the acquisition of Cisco service contracts more affordable with a low 3%* rate

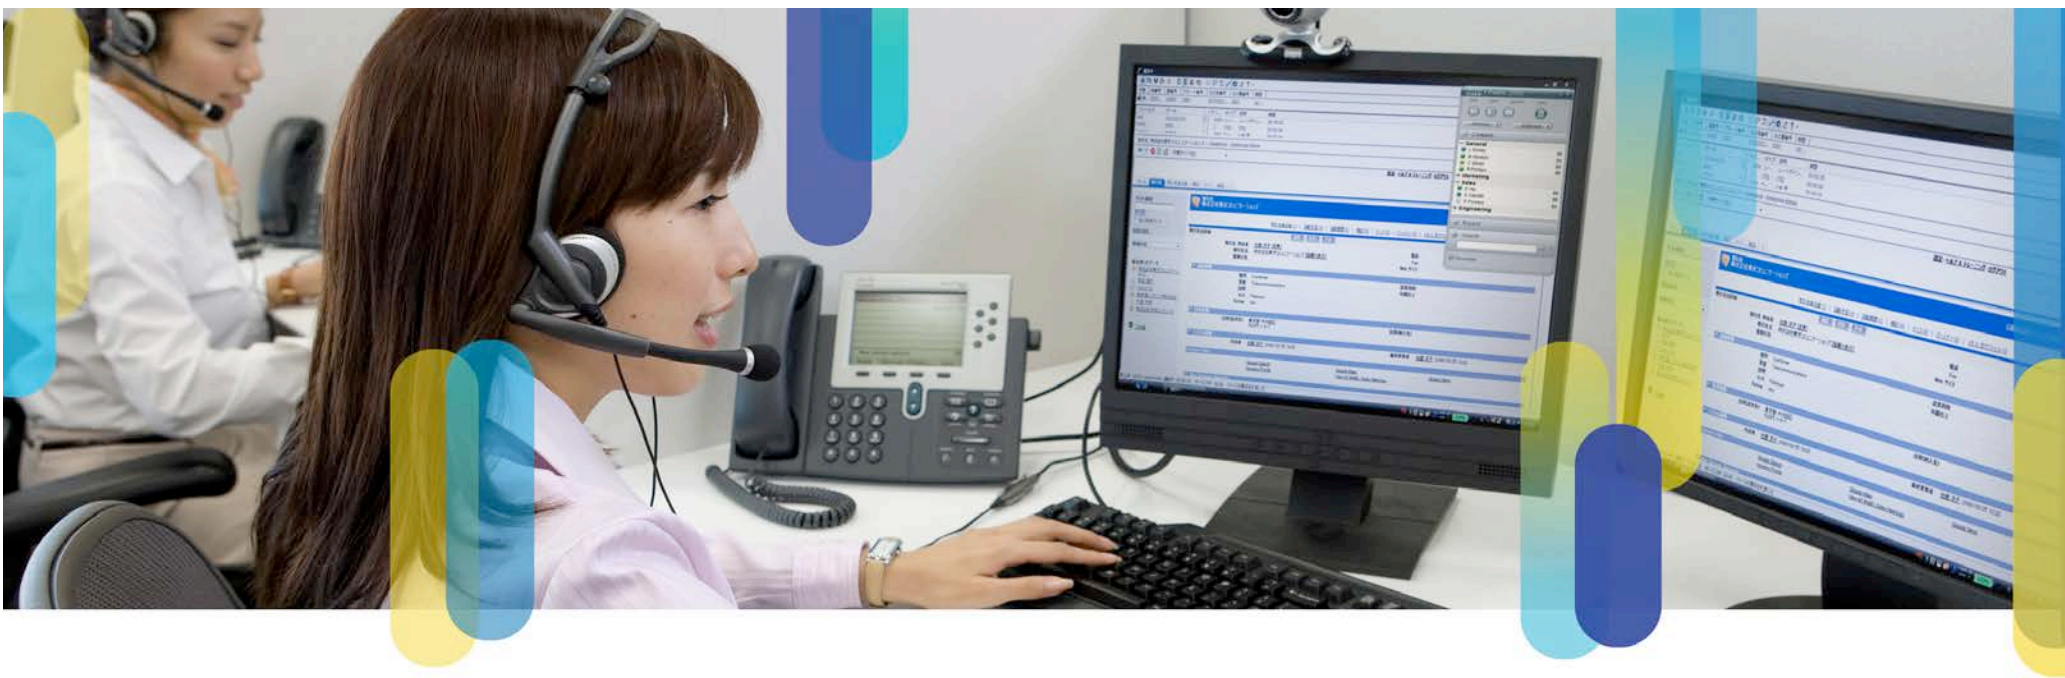

In today's rapidly changing business environment, the proper level of service is critical to increasing the performance and extending the life of your Cisco® technology solution.

Cisco Capital® is making the acquisition of Cisco services more affordable than ever with an aggressive finance rate of 3%. This below-market rate is available on most subscription-based, multi-year service contracts.

Offer Details

Cisco Capital Service Contracts Financing enables customers to:

- Lock in multiple years of service at today's price
- Establish predictable and manageable payments
- Take advantage of Cisco Capital's unique knowledge of Cisco products, providing you with competitive rates and more available structures than competitors
- Available for US and Canadian customers (excludes public sector customers)
- Offer valid through July 28, 2012

Cisco Capital offers flexible financing solutions enabling customers to purchase a variety of service contracts:

- **Bundled Services:** This solution combines a multi-year Cisco service contract with Cisco hardware, software and services, and equipment from other manufacturers for one easy monthly payment.
- **Maintenance and Services Only:** You can incorporate equipment not currently covered into a Cisco provided maintenance contract. Services can be financed on a standalone agreement for a term matching the length of the service contract.
- **Multi-year Services:** This option provides one convenient process to finance multi-year service renewals. It allows you to lock in current pricing, and helps you to avoid a large upfront capital investment.
